

# **IPC-E3204S**

Industrial 4-port RS-232/422/485 with Surge PCI-Express Serial Card

### Introduction

SUNIX IPC-E3204S, Industrial 4-port RS-232/422/485 PCI-Express Serial Card, allows users to expand four RS-232/422/485 ports on PC-based system. Each serial port achieves data rates up to 921.6 Kbps and utilizes UART with an on-chip 128-bytes hardware FIFO buffer for reliable, high-speed serial I/O. With SUNIX patented Auto-Switching RS-422/485 and RS-485 AHDC<sup>™</sup> technology, user can easily manage different serial interfaces selection and RS-485 signal direction control. SUNIX IPC-E3204S board is provided with 2KV IEC6100-4-5 Level 3 Surge Suppressor and 15KV IEC61000-4-2 ESD Discharge Transceiver. Besides, board supports a wide variety of operating systems, including Windows, Linux, DOS, and UNIX. It is the best serial communicating solution for industrial and harsh environment applications.

### Features

- Expands 4 independent RS-232/422/485 serial ports with communication speeds up to 921.6Kbps.
- With high reliable SUNIX PCI Express UART controller.
- Designed to meet PCI Express Base Specification Revision 2.0.
- RS-422 and RS-485 auto detect and switching technology jumper and software free.
- AHDC/CS<sup>TM</sup> technology for collision free communication.
- On-chip hardware auto flow control to guarantee no data loss.
- Ultra low power consumption design for Green Environment.
- 15KV ESD protection for all serial signals meets IEC-61000-4-2 standard.
- 2KV surge protection for all serial signals meets IEC-61000-4-5 Level 3 standard.
- Plug-n-Play, I/O address and IRQ assigned by BIOS.
- Certified by CE, FCC, VCCI, C-Tick, BSMI, RoHS, and Microsoft WHQL approval.
- Support Microsoft Windows, Linux, and DOS OS.

### **Specifications**

#### **Serial Communication**

Interface	RS-232/422/485 Baud rate		50bps ~921.6Kbps		
Controller	SUNIX SUN2410 (16C950 UART Compatible)	Stop bit	1, 1.5, 2		
BUS	PCI Express 2.0 x 1 (single lan)	Parity	even, odd, none, mark, space		
No. of Port	4-port Flow Control		Xon/Xoff (software)		
IRQ & IO	Assigned by System	FIFO	128byte Hardware		
Signal	RS-232: TxD, RxD, RTS, CTS, DTR, DSR, DCD, GND, RI RS-422: TxD+, TxD-, RxD+, RxD-, GND 4-wire RS-485: TxD+, TxD-, RxD+, RxD-, GND 2-wire RS-485: Data+, Data-, GND				
Protection	±15KV ESD IEC6000-4-2 Air Discharge ±8KV ESD IEC61000-4-2 Contact Discharge ±4KV ESD IEC61000-4-2 Level 2 Line-to-Line 2KV Surge IEC61000-4-5 Level 3 Surge Immunity Test				
PCB Connector	DB44 Female		-		

### **Driver Support**

Microsoft Client	XP/Vista/7/8/8.1 (X86/X64)
Microsoft Server	2000/2003/2008/2012/2012 R2 (X86/X64)
Microsoft Embedded	Windows CE5.0/6.0/ XP Embedded/ POS Ready 2009/ Embedded System 2009
Linux	Linux 2.4.x/2.6.x/3.x
DOS	DOS

### **Regulatory Approvals**

Hardware	EN55022 Class B, EN55024, EN61000-3-2, EN61000-3-3, FCC Part 15 Class B, BSMI: CNS13438, C-Tick: CISPR22 AS/NZS, RoHS
Software	Microsoft WHQL Windows <ul> <li>Microsoft Client: XP/Vista/7/8/8.1 (X86/X64)</li> <li>Microsoft Server: 2000/2003/2008/2012/2012 R2 (X86/X64)</li> </ul>

#### Environment

Operation Temperature	0 to 70°C (32 to 158°F)
<b>Operation Humidity</b>	5 to 95% RH
Storage Temperature	-20 to 85°C (-4 to 185°F)

Data	8	1
Data+	3	2
GND	7	5

### **Tech Forum**

#### User-friendly RS-232/422/485 UART Type Setting

User can select RS-232, RS-422 or RS-485 interface for each COM port by software.

#### RS-422/485 Auto Detect & Switching Design

SUNIX developed a unique technology "Auto Detect & Switching RS-422/485, which can automatically detect the state of RS-422 full duplex or RS-485 half duplex and control the data transmitting and receiving wires at the same port without any jumper settings. This design gives users the convenience to change the communication mode setting without any system shut downs.

#### RS-485 ACS™ Technology

Auto Carrier Sense (ACS<sup>™</sup>) technology is the data flow control under RS-485 half duplex (one-way traffic) communicating. It manages data flow between computers or devices or between nodes in a RS-485 network, so that the data can be handled at an efficient pace.

Auto Carrier Sense (ACS<sup>™</sup>) technology will check the status of RS-485 communication bus. If the bus is idle, it starts transmission. If the bus is not idle (some data flows in the bus), then it will postpone the transmission of UART until the bus is idle. Due to the reduction of TX/RX packet conflicting on RS-485 one-way traffic bus, it will enhance better system performance and RS-485 communication ability. SUNIX recommend enabling this feature.

#### AHDC/CS™ Technology

Since RS-485 is bidirectional which means the driver is turned on only when it needs to transmit some data, otherwise it is floating. SUNIX developed a new design to control the direction of driver (On or off) automatically which is called Auto Hardware Direction Control/Carrier Sense. AHDC/CS<sup>™</sup> works on the same principle and only turns on the driver when UART needs to transmits some data; but the advantage is that AHDC/CS<sup>™</sup>.

Auto Hardware Direction Control (AHDC<sup>™</sup>) technology makes it easier to manage 2-wire RS-485 half-duplex communications, eliminating the need for software interference. User does not necessary to write extra code for Windows applications to control the half-duplex protocol. Auto Hardware Direction Control (AHDC<sup>™</sup>) technology is the key feature of SUNIX UART, and this function is default enabling.

#### **Ultra Low Power Consumption**

Low power consumption is always a large part of the needs expressed by customers. Recently, low power consumption has become essential not only for system development but also for environmental reasons, and in fact low power consumption has become an ever larger part of the needs expressed by customers. SUNIX has pursued this issue via various approaches, as it seeks to provide special cell-bases ASICs that meet today's challenging needs for lower power consumption during active and standby modes. According to our typical test result, SUNIX UART controller costs 0.033W (3.3V@0.01A) power consumption under full-loading working condition.

### Package

- IPC-E3204S Industrial 4 ports RS-232/422/485 with Surge PCI-Express Serial Card
- Quick Installation Guide
- Software CD Driver
- DB44 to 4-port DB9 Male Connection Cable, 40 cm

### **Optional Accessories**

- DB44 to 4-port DB9 Male Connection Cable, 40cm
   Part No.: 1WDB-44M04009D4001
- DB44 to 4-port DB25 Male Connection Cable, 40cm
   Part No.: 1WDB-44M04025D4000
- DB44 to 4-port DB9 Male Connection Cable, 100cm
   Part No.: 1WDB-44M10009C4000
- DB44 to 4-port DB25 Male Connection Cable, 100cm
- PCIe Add-on Card Holder
   Part No.: 13BF-PCIEFIX010000

### **Ordering Information**

#### RS-232/422/485 Series
