

#### Introduction\_

WISE (Web Inside, Smart Engine) is a product series developed by ICP DAS that functions as control units for use in remote logic control and monitoring in various industrial applications. WISE offers a user-friendly and intuitive web site interface that allows users to implement IF-THEN-ELSE control logic on controllers just a few clicks away; no programming is required. With its powerful and easy-to-use features, it will minimize the learning curve, shorten time to market and dramatically reduce the labor and cost spent on system development.

WISE-7152 follows IEEE 802.3af-compliant (classification, Class 1) Power over Ethernet (PoE) specification. It allows receiving power from PoE enabled network by Ethernet pairs (Category 5 Ethernet cable). This feature provides greater flexibility and higher efficiency therefore simplifying systems design, saving space, reducing cables and eliminating the requirement for dedicated electrical outlets. Meanwhile, in case under a non-PoE environment, WISE-7152 will still be able to receive power from auxiliary power sources like AC adapters or battery, etc.

This module WISE-7152 supports Modbus/TCP protocol to make seamless integration with SCADA software available. It features 8-channel isolated open collector outputs and 8-channel isolated wet contact digital inputs. Each output channel supports 650 mA currnet driving @ 10 ~ 40 VDC and each digital input channel supports counter input.

#### Applications \_

Building Automation, Factory Automation, Machine Automation, Remote Maintenance, Remote Diagnosis, Testing Equipment, etc.

#### I/O Specifications \_\_\_\_\_

| Digital In               | put                  |                            |
|--------------------------|----------------------|----------------------------|
| Input Channels           |                      | 8                          |
| Input Type               |                      | Wet Contact (Sink, Source) |
| On Voltage Level         |                      | +10 Vdc ~ +50 Vdc          |
| Off Voltage Level        |                      | +4 V <sub>DC</sub> Max.    |
| Input Impedance          |                      | 10 kΩ                      |
|                          | Max. Count           | 65535 (16 bits)            |
| Counters                 | Max. Input Frequency | 50 Hz                      |
|                          | Min. Pulse Width     | 10 ms                      |
| Overvoltag               | e Protection         | +70 Vdc                    |
| Digital Ou               | utput                |                            |
| Output Channels          |                      | 8                          |
| Output Type              |                      | Open Collector (Source)    |
| Max. Load Current        |                      | 650 mA/channel at 25 °C    |
| Output Voltage           |                      | +10 Vdc ~ +40 Vdc          |
| Overvoltage Protection   |                      | 47 V <sub>DC</sub>         |
| Overload Protection      |                      | -                          |
| Short-circuit Protection |                      | Yes                        |

#### System Specifications \_\_\_\_\_

| System                      |  |
|-----------------------------|--|
| CPU                         | 16-bit CPU   |
| SRAM                        | 512KB  |
| Flash Memory                | 512КВ  |
| EEPROM                      | 16KB   |
| Watchdog                    | Yes  |
| Communication               |  |
| PoE Ethernet Port           | 10/100 Base-TX and automatic MDI/<br>MDI-X                               |
| 2-Way Isolation             |  |
| I/O                         | 2500 VDC   |
| EMS Protection              |  |
| ESD (IEC 61000-4-2)         | $\pm 4$ kV Contact for each terminal and $\pm 8$ kV Air for random point |
| EFT (IEC 61000-4-4)         | ±2 kV for Power Line   |
| LED Indicators              |  |
| PoE Power                   | PoE On   |
| L1                          | System Running   |
| L2                          | Ethernet Link/Act  |
| L3                          | Ethernet 10/100 M Speed  |
| Power Requirements          |  |
| Reverse Polarity Protection | Yes  |
| Powered from Terminal Block | Yes, 12 ~ 48 V <sub>DC</sub>   |
| Powered from PoE            | Yes, IEEE 802.3af, Class1  |
| Consumption                 | 4.3 W  |
| Mechanical                  |  |
| Dimensions (W x L x D)      | 72 mm x 123 mm x 35 mm   |
| Installation                | DIN-Rail or Wall mounting  |
| Environment                 |  |
| Operating Temperature       | -25 °C ~ +75 °C  |
| Storage Temperature         | -30 °C ~ +80 °C  |
| Humidity                    | 10 ~ 90% RH, non-condensing  |

### Software Specifications

| Functions                   |  |  |
|-----------------------------|--|--|
| Rule Configuration Website  | Access Web server on WISE controllers to edit and upload logic rules through web browser.          |  |
| 36 IF-THEN-ELSE Logic Rules | 3 IF conditions with AND or OR operators<br>3 THEN actions and 3 ELSE actions                      |  |
| 48 Internal Registers       | Hold temporary variables and read/write data via<br>Modbus/TCP address.                            |  |
| 12 Timers                   | Delay / Timing functions.  |  |
| 12 Emails                   | Send Email messages to pre-set Email receivers.  |  |
| 12 CGI Commands             | Send pre-set CGI commands.   |  |
| 12 Recipes                  | Set up THEN/ELSE action groups.  |  |
| 8 P2P remote modules        | Set up the connection information for the remote WISE modules.                                     |  |
| Modbus/TCP Protocol         | Real time control and monitoring I/O channels and system status of controllers via SCADA software. |  |

| IF Conditions     |                                       |  |
|-------------------|---------------------------------------|--|
| DI Channel        | ON, OFF, ON to OFF, OFF to ON, Change |  |
| Internal Register | =, >, <, >=, <= (value)               |  |
| DI Counter        |                                       |  |
| DO Counter        | =, >, <, >=, <= (value), Change       |  |
| Timer             | Timeout, Not Timeout                  |  |
| P2P               | DI, AI, DI counter, DO counter, IR    |  |
| Rule Status       | Enable, Disable                       |  |
|                   |                                       |  |

Dimensions (Unit:mm).

| THEN / ELSE Actions |                       |  |
|---------------------|-----------------------|--|
| DO Channel          | ON, OFF, Pulse Output |  |
| Internal Register   | Change the value      |  |
| DI Counter          | Deast                 |  |
| DO Counter          | Reset                 |  |
| Timer               | Start, Reset          |  |
| Email               | Send                  |  |
| CGI Commands        | Sellu                 |  |
| Recipe              | Execute               |  |
| P2P                 | DO(On/Off), AO, IR    |  |
| Rule Status         | Enable, Disable       |  |
|                     |                       |  |

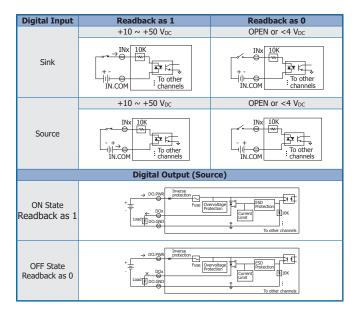

## Pin Assignments.
